Professional Summary:

Frontend Web Developer with 2.2 years of experience crafting interactive, mobile-responsive web interfaces with React, JavaScript, and Tailwind CSS. Passionate about sleek UI/UX and web performance.

Technical Skills:

• Frontend Technologies: React, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux, Responsive Design
• Development Tools: Git, GitHub, Vite, Webpack, npm, Figma to Code, REST APIs
• Basic Backend: Node.js, Express.js, MongoDB

Work Experience:

Frontend Developer | PixelCraft Media (2022 - Present)
• Built interactive client dashboards and landing pages using React, Tailwind CSS, and Vite.
• Implemented state management using Redux Toolkit for complex e-commerce checkouts.
• Integrated REST API endpoints to fetch and render dynamic catalog data.
• Optimized web assets and lazy-loading, achieving 95+ Google Lighthouse performance scores.

Junior Web Developer | TechSprint Studio (2021 - 2022)
• Converted Figma mockups into pixel-perfect responsive HTML5/CSS3 and React components.
• Collaborated with QA team to fix cross-browser compatibility issues.

Education:

Bachelor of Science (B.S.) in Computer Science
University of California, Irvine | Graduated: 2021
